

# We can support you, wherever you may be.

**Allenfield Solutions introduces our newest investment in your success:** An on-demand remote support tool that does not require any costly pre-installation or configuration. Instead, you simply connect your computer to the internet and request support from one of our gurus. Within seconds of your request, we can connect to you, see and control your screen and fulfill your support request. Our cutting edge software allows us to support your entire workforce, on any of the following platforms:

**Mac OS X v10.4 Tiger | Windows 95-XP | Windows Server 2003  
Windows Vista**

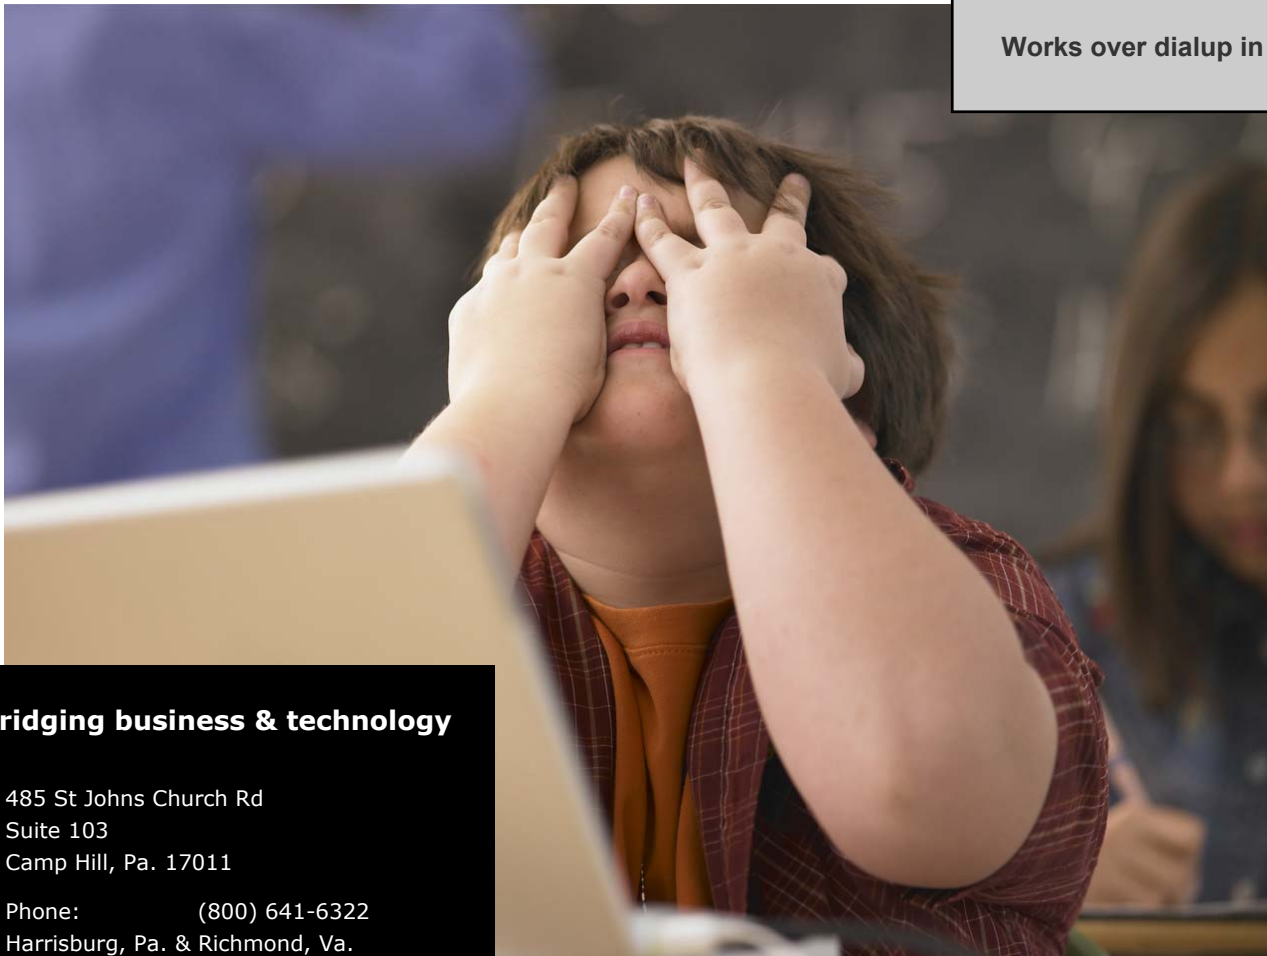

**Works through firewalls**

**No administrator rights required**

**No software installs**

**Works over dialup in < 1 minute!**

**bridging business & technology**
